

FLORIDA A&M UNIVERSITY
**COOPERATIVE
EXTENSION**
COLLEGE OF AGRICULTURE AND FOOD SCIENCES

Greetings,

The Entomology Insect Science Summer Camp in the College of Agriculture and Food Sciences, through Cooperative Extension Programming , has successfully hosted a summer program since 2016. In 2020 and 2021 we utilized a virtual format. We are pleased to be back to face to face instruction and we are looking forward to an awesome summer camp. Throughout the course of the week, students will explore the wondrous world of insects and make their own insect collection boxes.

It is our special goal to empower young minds to keep a strong interest in science at this critical time in their educational development.

The Insect Science Summer program will take place from **June 6-10, 2022**.

If you have any questions/concerns, please email/call Sabrina Hayes:
