

# 2026 AgDiscovery Summer Enrichment 5-Day Summer Program

The AgDiscovery Summer Enrichment Program is an opportunity for students to explore agricultural sciences and learn about careers in animal-related disciplines, including veterinary medicine. Students will gain experiential learning through workshops, laboratory and field exercises, field trips, and various cultural and teambuilding activities. The program helps students to understand better or refine their career paths and apply for early admission to FAMU.

**July 19-24, 2026**

**Application Deadline: June 1, 2026**

*Applications are now available.*

To apply, download the application and email to [extension@fam.u.edu](mailto:extension@fam.u.edu).
